DOUBLE MIXER 1600W - POWX088

This Powerplus double mixer is a perfect supply for mixing all kind of mortar, cement, concrete, plaster,... With the help of its robust gear box and powerful high torque motor these harder materials will be mixed effortless.

The two paddles can be attached extremely fast, using the auto connect system (hex shaft 13mm). Just make sure you attach the red labelled paddle (to the red connector) first, and the black labelled one (to the black connector) afterwards.

These two 500mm high performance paddles work clockwise and anticlockwise respectively. Their diameter equals 120mm. Thanks to the soft start, materials won't splash around when you start mixing. The on-off switch can be locked in order to use the mixer freely. This mixer features 2 speed functions and permits a contact speed control using the wheel close to the handle. It comes with a 3m cable and is warranted for 3 years.
